Professional Experience

Accountant & MIS Executive

March 2026 – August 2026

PickNPack Solutions India Pvt Ltd — New Delhi, India

- Performed **bank and ledger reconciliation** on a daily and monthly basis to maintain accuracy of financial records.
- Verified **General Ledger entries** and resolved discrepancies in accounts payable and accounts receivable.
- Built **Power BI dashboards** tracking Sales, Production, and Dispatch data for management review.
- Supported attendance and wage-tracking data using Excel-based tracking sheets.
- Used Pivot Tables and VBA to convert raw transaction data into summarized management reports.

MIS Executive

February 2025 – August 2025

Unique Auto Products Pvt. Ltd. — New Delhi, India

- Contributed to Flow Monitoring, Inventory, Production, and Vendor Management tracking systems built in Excel and Google Sheets.
- Prepared MIS reports and variance analyses to support management decision-making.
- Worked on process controls aimed at improving data accuracy and consistency.

MIS Executive & Inventory Manager

July 2021 – February 2025

STB Technologies Pvt. Ltd. — Bahadurgarh, Haryana

- Automated a recurring manual reporting task using Pivot Table optimization, reducing processing time from **2 hours to 4 minutes**.
- Digitised employee attendance and wage records, replacing a paper-based process.
- Managed a warehouse coding system covering **3,500+ SKUs** using Excel, UserForms, and VBA.
- Built a basic AppSheet-based inventory lookup app to help warehouse staff search stock more efficiently.
- Built a customer complaint registration form using **HTML, CSS, and JavaScript**.

Key Achievements

- **2 Hours to 4 Minutes:** Automated a recurring reporting task through Pivot Table optimization at STB Technologies.
- **3,500+ SKU Warehouse System:** Built and maintained an Excel/VBA-based warehouse coding and inventory system.
- **Financial Data Accuracy:** Performed bank and ledger reconciliation and GL verification across accounting and MIS responsibilities.

Personal Projects

» [GitHub Repo Link](#)

- **Delegation Handler:** Task delegation system using Apps Script and Sheets with live KPI dashboard and audit trail.
- **CRM / Complaint Register:** Sheet-based complaint intake form using Apps Script with duplicate detection.
- **Attendance System:** Apps Script and Sheets web app for employee check-in/out with automatic status classification.
- **Expense Tracker:** Multi-transaction entry tool using Apps Script and Sheets with per-member transaction history.
- **Production Management System:** CRUD-based product, machine, and production log tracker using Apps Script and Google Sheets.
- **Inventory Management System:** UserForm-driven Excel/VBA system with stock calculation and low-stock alerts.
- **Sales Dashboard:** Power BI e-commerce dashboard covering category, geography, and profitability.
